***Election/Restrictions***

Claims 2-64,72-82 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 4.

Examiner agrees with applicant's arguments directed to the election of species requirement as applied to the elected invention of group IV. The species is not applicable to the elected invention and therefor no election is required at this time.

Applicant's election without traverse of claims 65-71 in Paper No. 5 is acknowledged.

***Specification***

The disclosure is objected to because of the following informalities: page 1, lines 14-20 directed to related applications is incomplete. The information should be updated to include the status of the various US applications. Furthermore the continuing data should list five related applications.

Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 65-71 are rejected under 35 U.S.C. 102(b) as being anticipated by Wilk (5429144).

Wilk discloses a stent for stenting a transmyocardial passageway including a tubular body that has a radially collapsed configuration and a radially expanded configuration. The stent has a predetermined length which meets the limitation of "having a length" as claimed. The recitation of "which is longer than the length of the transmyocardial passageway" is directed to a method step of sizing the stent prior to inserting the stent such that selection of the stent is to be longer than the passageway when situated in situ. For disclosure of the stent see column 5, lines 42-65, column 6, lines 24-34, column 7, lines 27-45, and column 8, lines 1-58.

Claim 66, see column 5, lines 42-65.

Claim 67, see column 6, lines 24-34.

Claim 68-71, see column 8, lines 39-58.
